

PUREGAS Family of Digital Dryers

[All PUREGAS 'W' dryers direct-connect to your PUREGAS monitoring system]

The PUREGAS 4-in-1 Combo Transducer [PVD873AD] allows you to remotely monitor your existing analog dryers

- Real time Flow, Pressure, Temperature and Humidity
- Highly reliable solid state microprocessor circuitry
- Operates on one dedicated wire pair
- Easily connects to any air dryer pressure outlet and works with all brands of air dryers
- Monitor all your existing air dryers in conjunction with a PUREGAS monitoring system
- Operating pressure range 1-30 psi
