

PVD17000 Series - Resistive Pressure Transducers

Part Number	Description
PVD17292	Manifold install, 0-9.5 psi. Includes test valve and 3/8" plastic tubing fitting for pressure input.
PVD17192	Individual install, 0-9.5 psi. Includes 15ft. #22 (single pair) in plastic tubing for pressure input, test valve and mounting bracket.
PVD17192S1	Individual install, 0-9.5 psi. Includes 15ft. #22 (single pair) sealed in plastic tubing, test valve, mounting bracket and separate 3/8" plastic tubing fitting for pressure input.
PVD17392	Indoor/Aerial install, 0-9.5 psi. Includes 6ft. #18 SVO cord, test valve, mounting bracket and 3/8" plastic tubing fitting for pressure input.
PVD17392S1	Indoor/Aerial install, 0-9.5 psi. Includes 6ft. #18 SVO cord, test valve and male 1/8-27NPT for mounting/pressure input.

PVD18000 Series - Solid State Pressure Transducers

(*Compatible with PUREGAS Monitoring Systems ONLY)

Part Number	Description
PVD18493	Drop in, 0-14.5 psi, programmable.
PVD18293	Manifold install, 0-14.5 psi, programmable. Includes test valve and 3/8" plastic tubing fitting for pressure input.
PVD18293S1	Manifold install, 0-14.5 psi, programmable. Includes 15ft. #22 (single pair) sealed in plastic tubing and separate 3/8" plastic tubing fitting for pressure input.
PVD18193	Individual install, 0-14.5 psi, programmable. Includes 15ft. #22 (single pair) in plastic tubing for pressure input, test valve and mounting bracket.
PVD18193S1	Individual install, 0-14.5 psi, programmable. Includes 15ft. #22 (single pair) sealed in plastic tubing, test valve, mounting bracket and separate 3/8" plastic tubing fitting for pressure input.
PVD18393	Indoor/Aerial install, 0-14.5 psi, programmable. Includes 6ft. #18 SVO cord, test valve and 3/8" plastic tubing fitting for pressure input.
PVD18393S1	Indoor/Aerial install, 0-14.5 psi, programmable. Includes 6ft. #18 SVO cord, test valve and male 1/8-27NPT for mounting/pressure input.
PVD18593	Plastic housing, 0-14.5 psi, programmable. Includes 15ft. #22 (single pair) in plastic tubing for pressure input and test valve.
PVD18593S1	Plastic housing, 0-14.5 psi, programmable. Includes 15ft. #22 (single pair), test valve and separate 3/8" plastic tubing fitting for pressure input.

PVD886 Series - Addressable Moisture Transducers

Part Number	Description
PVD886AMT4	Includes 4' sensor cable.
PVD886AMT8	Includes 8' sensor cable.

PVA10000 Series - Addressable Pressure Transducers

Part Number	Description
PVA10493	Programmable.
PVA11493	Address set by jumpers/switch.
PVA10293	Manifold install, 0-14.5 psi, programmable. Includes test valve and 3/8" plastic tubing fitting for pressure input.
PVA10293S1	Manifold install, 0-14.5 psi, programmable. Includes 15ft. #22 (single pair) sealed in plastic tubing and separate 3/8" plastic tubing fitting for pressure input.
PVA10193	Individual install, 0-14.5 psi, programmable. Includes 15ft. #22 (single pair) in plastic tubing for pressure input, test valve and mounting bracket.
PVA10193S1	Individual install, 0-14.5 psi, programmable. Includes 15ft. #22 (single pair) sealed in plastic tubing, test valve, mounting bracket and separate 3/8" plastic tubing fitting for pressure input.
PVA10393	Indoor/Aerial install, 0-14.5 psi, programmable. Includes 6ft. #18 SVO cord, test valve and 3/8" plastic tubing fitting for pressure input.
PVA10393S1	Indoor/Aerial install, 0-14.5 psi, programmable. Includes 6ft. #18 SVO cord, test valve and male 1/8-27NPT for mounting/pressure input.
PVA10593	Plastic housing, 0-14.5 psi, programmable. Includes 15ft. #22 (single pair) in plastic tubing for pressure input and test valve.
PVA10593S1	Plastic housing, 0-14.5 psi, programmable. Includes 15ft. #22 (single pair), test valve and separate 3/8" plastic tubing fitting for pressure input.
PVA11593	Plastic housing, 0-14.5 psi, address set by jumpers/switch. Includes 15ft. #22 (single pair) in plastic tubing for pressure input and test valve.
PVA11593S1	Plastic housing, 0-14.5 psi, address set by jumpers/switch. Includes 15ft. #22 (single pair), test valve and for pressure input.

PVD27000 Series - Flow Transducers

Part Number	Description
PVD27122	Flow Transducer-Underground, 0-9.5 SCFH 20 step. Includes 15ft. #22 (single pair) in sealed plastic tubing and two 3/8" plastic tubing fittings
PVD27124	Flow Transducer-Underground, 0-19 SCFH 20 step. Includes 15ft. #22 (single pair) in sealed plastic tubing and two 3/8" plastic tubing fittings
PVD27142	Flow Transducer-Underground, 0-9.5 SCFH 40 step. Includes 15ft. #22 (single pair) in sealed plastic tubing and two 3/8" plastic tubing fittings
PVD27144	Flow Transducer-Underground, 0-19 SCFH 40 step. Includes 15ft. #22 (single pair) in sealed plastic tubing and two 3/8" plastic tubing fittings
PVD27322	Flow Transducer-Indoor/Aerial, 0-9.5 SCFH 20 step. Includes 5ft. #18 SVO cord and two 3/8" plastic tubing fittings
PVD27324	Flow Transducer-Indoor/Aerial, 0-19 SCFH 20 step. Includes 5ft. #18 SVO cord and two 3/8" plastic tubing fittings
PVD27342	Flow Transducer-Indoor/Aerial, 0-9.5 SCFH 40 step. Includes 5ft. #18 SVO cord and two 3/8" plastic tubing fittings
PVD27344	Flow Transducer-Indoor/Aerial, 0-19 SCFH 40 step. Includes 5ft. #18 SVO cord and two 3/8" plastic tubing fittings

PVD873 Series - Pressure and Flow Combination Transducers
 (*Compatible with PUREGAS Monitoring Systems ONLY)

- Multiple readings through a single dedicated pair
- State of the art solid state design
- Underground combo transducer showing real time flow and pressure

PVD860D - Transducer Calibrator/Tester
 (*Required for field installation of solid state transducers)

- 128x64 LCD display, 4x4 keyboard
- Test transducers before and after installation
- Recalibrate transducers
- Transducer setup and test
- Measure cable resistance, voltage and capacitance
- Measure transducer operational current, quiescent current, max. reading current and min. reading current
- Discover/record addresses of transducers on line (multi-mode search)
- Password protection
- Extensive diagnostic facilities
- Real time clock to display year, month and day
- Auto power-down

PVTMH Series - Pressure Transducer Manifold/Housing

Part Number	Description
PVTMH5P	5 bank manifold, with 6 pair wire. Will accommodate one to five "Manifold install" transducers.
PVTMH10P	10 bank manifold, with 25 pair wire. Will accommodate one to ten "Manifold install" transducers
